Dear Dr. Azriyenni Azhari Zakri,

We have reached a decision regarding your submission to Indonesian Journal of Electrical Engineering and Informatics (IJEEI), a Scopus-indexed journal.

Based on the comments from reviewers, your paper (ID:1908) "Qualified Two-Hybrid Techniques by DWT Output to Predict Fault Location" requires REVISION before publication.

The comments and feedback from reviewers are at the end of this email. Please make the necessary changes based on reviewers' comments and suggestions. You have 2 weeks to improve the paper. After revision, please upload the revised version of your paper to the submission system (as author version in the same paper ID number, below the decision, NOT as new paper submission).

---

Reviewer A:

Does the title of the paper accurately reflect the major focus contribution of this paper?:

Yes

If No, please suggest change of the title as appropriate within 10 words::

Is the abstract an appropriate and adequate digest of the work?:

Yes

Is the paper clear, concise, and well organized?:

Yes

If No, please suggest how to organize the paper::

Rate of the contribution strength to the field is represented in this paper:

Good

Is the paper free from obvious errors, misconceptions, or ambiguity? Is the paper written in correct English?:

No

If No, please note grammatical errors and suggest corrections::

Some typos and grammatical errors

Please mark appropriate scale for the overall grade for this paper? (A score of 7 or above typically provides ground for IJEEI acceptance):

8

Reviewer's comments and suggestions on how to improve the paper. (If it is not possible, kindly please use separate sheets or a copy of the paper for comments and suggestions for revision. Indicate whether revisions are mandatory or suggested. Please use word processing type format if possible, and then upload or submit via email to [IJEEI.IAES@gmail.com](mailto:IJEEI.IAES@gmail.com)):

This paper is interesting and well-written.

Some suggestions:

1. Please add comparison of the findings with other published results or other methods to enhance the novelty.
2. The discussion section needs to be expanded to cover many scenarios
3. Some typos and grammatical errors need to be corrected

Reviewer B:

Does the title of the paper accurately reflect the major focus contribution of this paper?:

Yes

If No, please suggest change of the title as appropriate within 10 words::

Is the abstract an appropriate and adequate digest of the work?:

Yes

Is the paper clear, concise, and well organized?:

Yes

If No, please suggest how to organize the paper::

Rate of the contribution strength to the field is represented in this paper:

Average

Reviewer's comments and suggestions how to improve the paper. (If it is not possible, kindly please use separate sheets or a copy of the paper for comments and suggestions for revision. Indicate whether revisions are mandatory or suggested. Please use word processing type format if possible, and then upload or submit via email to [IJEEI.IAES@gmail.com](mailto:IJEEI.IAES@gmail.com))

:

1. The technical content of this paper is acceptable, but the language is poor. Even the abstract is hard to understand. I assume that the paper is Google-translated, thus it is confusing. Please rewrite and checked with the professional proof reader.
  2. The research uses 2 hybrid models: which one is better? Or are both used simultaneously?
  3. It lacks validation on the model.
  4. Fig. 5 is missing
  5. Comparison with other results from published papers should be provided.
  6. Conclusion is inconclusive and confusing. What is the main finding?

Dear Azriyenni Azhari Zakri,

We have reached a decision regarding the submission of your revised paper to Indonesian Journal of Electrical Engineering and Informatics (IJEI), ISSN 2089-3272, a Scopus-indexed journal. It is our great pleasure to inform you that your revised paper with the title: "Qualified Two-Hybrid Techniques by DWT Output to Predict Fault Location" (ID:1908) has been ACCEPTED for publication in the next issue of the journal. Congratulations!

For the correctness of the metadata (which will appear in the online abstract as well as in the indexing services), please UPDATE the metadata. After log in to your paper in the submission system, click "Edit Metadata" under 'Submission Metadata'. Several important things to check (and revise if needed):

1. Please include ALL authors that appear in the paper. Check all authors' details (names and affiliations). DO NOT put any academic title (Dr, Prof, etc). Be careful to put the FIRST NAME and SURNAME, and please be consistent between the metadata and the final paper.
2. Make sure that the title and abstract are the same with your paper's title and abstract.

Please do this step carefully as it is your responsibility for the
